Officers Complain that Cutting Criticism Continues in London and Of of the Malt Hurts Discipline.

WASHINGTON, Oct. 10 .- The canteen lasue is revived to-day in a report by Wood on military conditions in Cuba. The matter is introduced in a pub-report submitted by Inspector-Gen Burton.

He says that the exchange is a great comfort to the soldier in Cuba, who is deprived of many of the comforts known to him at home. The officers generally complain that the elimination of beer from the exchange has worked a hard-ship on the soldier, and has been deri-mental to good order and military dis-cipline.

mental to good order and military discipline.

Gen. Wood says the general conduct of the American troops in Cuba continues to be excellent, and, as heretofore, compleints against them from civil authorities and individuals are extremely rare. The total number of deaths of officers and enlisted men during the year was sixty-seven, a perculage of loss of 1.23.

Yellow fever has now been almost driven from the island, owing to the energetic war upon mosquitoes and the sanitary precautions adopted. However, during the past summer five officers of Gen. Wood's staff were taken fill with yellow fever and three of them died. Among the headquarter's employees there were forty-eight victims to yellow fever, with eleven deaths.

greatly surprised at the severity of the sentence, as such cases have usually been let off with fines. Justice Hinsdale, in delivering the sentence, said:
"We concede the right to workmen to organize and do anything lawful to protect their interests, but we will not tolerate these acts of violence, and propose to inflict very drastic punishment on any such offenders who may come before us in future."

The three prisoners were accused of setting upon Silver when he tried to enter the boycotted shop and beating him.

"Dear Mrs. Pinkham-As I am a great sufferer from female troubles hought I would write to you to see if you thought there was any positive help for me. I am very sore through my bowels, especially over the womb, and on the left side low down I will be taken with a dull, sore pain, and in an hour will be so fore that I cannot move myself, and will have to be pouliced, and will be unable to walk for two or three weeks. I have a bad dis-harge at times. The doctor says I will have to go through an operation and have the left ovary removed. If you can help me let me hear from you soon.

"Dear Mrs. Pinkham-When I wrote to you last fall in regard to my health, death would have been a welcome visitor to me, but I followed your advice and am now well. I had tried everything I could hear of, went to every doctor far and near, spent a great deal of money and received no benefit. At the time I wrote you I was saving up money to go to Chicago to have an operation upon the womb and ovaries, which the doctor said unless I had I would die, but, thanks to your remedies, I avoided this. I have taken eight bottles of Lydia E. Pinkham's Vcgetable Compound, two of your Blood Purifier, and used four packages of Sanative, and am a well woman. I advise every woman suffering as I did to take Lydia E. Pinkham's Mrs. M. G. SHIVELY, Upson, Wis.
